DISTINGUISHING FEATURES OF THE CLASS:

The work involves the performance of a broad range of moderately difficult clerical tasks, which may require an understanding of specific laws, organizational rules, policies or procedures. Specific duties will, however, vary with the needs of the appointing authority. The routine operation of an alphanumeric keyboard and other office technology is usually required in this role. Ability to accurately manipulate specific software is valued over speed when performing the keyboarding function. Procedures are usually fixed, but are of a more difficult nature than those of an Administrative Assistant – Level 1. The psychological demands of this job are moderate in that the incumbent may experience frequent interruptions, changes in work priority and occasional rush orders or conflicting deadlines. Basic interpersonal skills are needed to verify or explain information about agency regulations, policies or programs. Internal contacts are typically with employees in the work unit and across sections or divisions of the organization. Cooperation is required to fulfill basic work objectives. External contact will consist of basic communication and routine exchanges of information. The incumbent works under the direct supervision of a higher-level staff member but enjoys moderate autonomy in carrying out the every-day activities. Supervision of others is not a responsibility of employees in this class, although the employee may be called upon to help orient or cross-train other similarly classified staff. The incumbent will perform any and all administrative duties that may be assigned.
